

Hill Electrical, Inc.
P.O. Box 158
Mechanicsville, Virginia 23111
(804) 746-3122

Hill Electrical, Inc.
Maintenance Agreement

Hill Electrical, Inc. will perform the following maintenance to your Generac Guardian Generator every (6) months on a 7KW through 22KW Air Cooled Generator:

- Check battery state of charger and condition.
- Check transfer switch.
- Inspect exhaust system.
- Checked engine ignition system.
- Test engine governor; adjust or repair, if needed.
- Changed engine oil and filter.
- Service air cleaner.

The cost of this maintenance work is **\$475.00 per year**. The total cost will be due on our first scheduled visit. This price is for the Richmond / Metro area. There will be an additional mileage charge for calls outside of this area in addition to the maintenance cost.

The above maintenance work to be performed is for routine checks covered in the Generac Five - Year warranty period. After the warranty period had expired, there will be a charge for any repairs that are needed.

Hill Electrical, Inc.
Maintenance Agreement

Hill Electrical, Inc. will perform the following maintenance to your Generac Guardian Generator every (6) months on a 25 KW and up Generator:

- Check battery state of charger and condition.
- Check transfer switch.
- Inspect exhaust system.
- Checked engine ignition system.
- Test engine governor; adjust or repair, if needed.
- Changed engine oil and filter.
- Service air cleaner.

The cost of this maintenance work is **\$575.00 per year**. The total cost will be due on our first scheduled visit. This price is for the Richmond / Metro area. There will be an additional mileage charge for calls outside of this area in addition to the maintenance cost.

The above maintenance work to be performed is for routine checks covered in the Generac three-year warranty period. After the warranty period had expired, there will be a charge for any repairs that are needed.
